

Crucial® Memory Selector™

Finding the right memory has never been easier

The Crucial Memory Selector allows easy access to our ever-growing database of compatible DRAM for desktops, laptops, netbooks, servers, workstations and motherboards.

Tool details:

- Embedded in an internal or external website, the Crucial Memory Selector delivers access to over 250,000 Crucial DRAM upgrades for over 50,000 systems.
- Features an easy integration process
- The advanced search capability allows searches by DRAM attribute or a system's make or model.
- Displays system configuration information and Crucial Base Part number.
- A part number cross-reference tool with a dynamic and growing database of over 4,000 OEM and competitive DRAM part numbers and their Crucial equivalents.

Implementing the Crucial Memory Selector is easy!

iframe option

Use the iframe option if you would like the Crucial Memory Selector to be embedded in your site (even though it points to an external website). We recommend this option as it offers a more seamless integration with your existing website.

Crucial English selector suggested iframe implementation code:

```
<iframe  
src="http://www.orderingmemory.com/selector/index.asp?bsn=CRUCIALSTANDARD" name="myframe" width="800"  
height="600" scrolling="auto">
```

Pop-up option

The pop-up option creates a new browser window.

Suggested pop-up window size:

800 pixels x 600 pixels
